

Memorandum of Understanding

Parroha Multiple Campus Sainamaina Chamber of Commerce

The development of trade & commerce foster the development of strong economy and a base of a powerful nation. Business organizations have eminent role in the production and distribution of goods and service and making the life of people more comfortable and thus increasing the living standard. The role played by business sector in revenue generation and contribution of tax towards government is remarkable. The flourish of trade & commerce is the sign of nation's development.

It is the age of globalization. Partnership and collaboration between and among the different organizations a new philosophy and practice in the present context. Since we are working in the same community in Sainamaina Municipality and therefore, we both can join hands together and achieve the mutual benefits. The social responsibilities, corporate governance, employment generation, quality promotion, are the major issues and concern of the present society. We together can work to meet the expectation of our community and also contribute in the overall development of Sainamaina Municipality.

Specifically we make common understanding to work together in the following area:

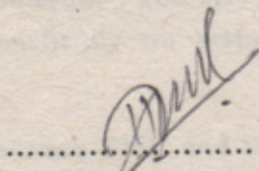

- 1) Create network and connectivity for information sharing between PMC and Sainamaina Chamber of Commerce
- 2) Create opportunities by providing internship to our students thus combining the classroom activities and business experiences which help to develop better human resources. [Learning & Practice]
- 3) Conduct research work in relation with business management & development which will help the business organization to work and take managerial decision. We can collaborates the research work together and search new business prospects.
- 4) We can take mutual benefits on the principle of Reciprocal. "You take from us and we will take from you" In other words our output can be employed by business communities as Inputs in your organization. Similarly your outputs materials and supplies are the inputs of our college. We give more priority in buying all the requisition from your organizations. This will also foster the economic activities within our economic cycle.

- 5) We can combine our resources and effort to training & development programs thus achieve the capacity building and achieve the efficiency. We can promote entrepreneurial skill development.
- 6) Our college can provide volunteer's for managing events such as exhibition, trade fair and other festival programs conducted by Chamber of Commerce & Industry Sainmaina
- 7) Chamber of Commerce & Industry Sainamaina and PMC will work together to create and develop business awareness and promote fostering the use of national production in consumption. Similarly we can work on the study of business environment especially in Sainamaina municipality. We can provide expertise knowledge on this matter.
- 8) Social responsibility is the concern of all the business organization as well as educational institution. We join hands together and make a common plan to render social obligations. We can move together for environmental protection. Promotion of social cultural value and ethic, will help in making education institution a peaceful learning Zone.
- 9) We respect and support your mission "Economic development & nation building" and our mission is " Educating for nation building". Our common destination is Nation Building which is rationality behind the collaboration and partnering between Sainamaina Chamber of Commerce & Industry and Parroha Multiple Campus.
